SUMMARY

Computer Engineering undergraduate at Thapar Institute of Engineering and Technology (Batch '29) exploring software development with foundations in C++, web development, and problem-solving. Interested in designing scalable applications, strengthening backend and full-stack development skills, and applying engineering principles to real-world software projects.

EDUCATION

Thapar Institute of Engineering and Technology (TIET), Patiala, Punjab, India

Aug 2025 – May 2029

Bachelor of Engineering — Computer Engineering | CGPA: 8.86

PROJECTS

SafePulse AI — AI-Assisted Medical Triage & Monitoring System

Apr 2026

Hackathon Project | Python, Flask, Scapy, AI-Assisted Development, Healthcare Automation

- Developed an AI-assisted medical triage prototype focused on automated patient analysis, prioritization, and decision-support workflows.
- Contributed to integrating application modules, backend workflows, and AI-assisted components to streamline system functionality.
- Leveraged AI development tools for rapid prototyping, debugging, and implementation while gaining exposure to AI-enabled software development workflows.

Phishing Detection System

Jun 2026 – Present

OWASP TIET | HTML, CSS, JavaScript, React

- Contributed to the frontend development of a phishing detection system under OWASP TIET by implementing assigned UI components using React, HTML, CSS, and JavaScript.
- Collaborated with team members to translate design requirements into responsive and reusable frontend components while ensuring a consistent user experience.
- Participated in a collaborative development workflow involving version control, feedback iterations, and frontend integration.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python (Basic)

Frontend: HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming

LEADERSHIP & ACTIVITIES

OWASP TIET — Organizing Team Member

2026

- Contributed to organizing HackOWASP, a 36-hour cybersecurity hackathon, as part of the Marketing team, supporting event promotion, participant engagement, and coordination efforts.
- Collaborated with cross-functional teams to manage event requirements and ensure smooth execution of hackathon activities.

LEAD Society, TIET — Event Matrix 4.0 Organizer

2026

- Supported planning and execution of Event Matrix 4.0, contributing to event coordination, creative ideation, and on-ground responsibilities.
- Collaborated with the organizing team to solve operational challenges and deliver a successful event experience.
